

REG. U.S. PAT. OFF.

Paramount

—a Leader in Tone Development

HEAR other phonographs, listen to them critically, then have the Paramount demonstrated and you will appreciate its remarkable development in tone quality.

The Paramount faithfully reproduces from all records because its tone mechanism is a series of scientifically developed units, every part properly constructed.

The result is a perfect interpretation of every record and perfect transmission of sound waves without scratchy noises or mechanical vibration.

Six Models, Exquisite Cabinets

The Paramount pleases the eye just as it pleases the ear. Every cabinet expresses the skill of the craftsman and is the product of master builders.

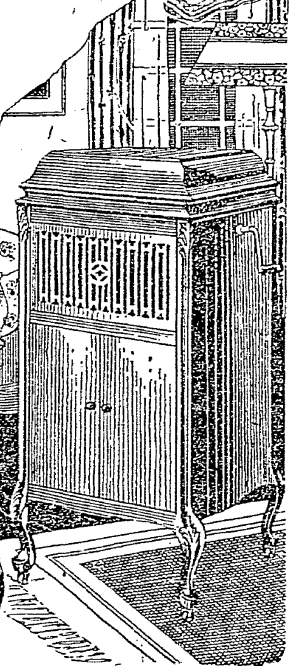

Paramount Records

You can get all of the latest hits each month on Paramount records, recorded in the specially equipped Paramount laboratories; and you can play all other makes of records on the Paramount. It gives you the choice of all the world's best music.

We're always glad to demonstrate

Hear these New Paramount Hits:

- Dardanella
- I Am Climbing Mountains
- Love's Dream After the Ball
- Venetian Love Song
- My Isle of Golden Dreams
- Peggy
